47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

You should allow more competitors in the internet provider market. I use a small company called Sonic in my home town of Sausalito.

If you take away the ability for smaller companies to compete it would certainly make things difficult and probably more expensive for me and several of my neighbors. Competition is good for the marketplace - please allow us all to benefit from broadband competition. Also, there is not much else to choose from in this location. The 2 other providers start with low prices to lure you in then suddenly the fees spike and it become unaffordable.

We need smaller companies to provide internet service!

Thank You,
